

## STANDARD: EN 12390-7

Used in conjunction with a suitable electronic balance for specific gravity determination of fresh and hardened concrete and aggregates. A purpose-built robust frame designed to support the electronic balance.

The lower part of the frame incorporates a moving platform, which carries the water container allowing the test specimens to be weighed in both air and water.

**The balance is not included in the apparatus and must be ordered separately.** Any type of electronic balance fitted with an under-bench weighing facility can be used. The models listed as accessories below are ideally suited for use with this specific gravity frame.

Overall dimensions: 620x560x1020 mm

Weight approx.: 42 kg

## ACCESSORIES

- V075-15 Digital top pan balance 15 kg x 1g/0.5g 30kg/0.5g (optional)
- V042 Density tank, plastic, 560x420x300 mm
- V064 Suspension hook
- V041 Stainless steel density basket, dia. 200 mm by 200 mm height, mesh size 3.35 mm, all stainless steel made.
