

PAN MIXER

The machine is perfect for 2-3 persons construction crew. Why go through all the hassles of towing a mixer to the job site, when the machine can make a wheelbarrow of mortar, stucco, grout or dry pack mortar every 3 minutes.

TECHNICAL SPECIFICATIONS

Drum capacity	120 liter
Batch output	60liter/175lbs
Motor rating	2.2HP
Paddle speed	32rpm
Drum diameter	27"
Wheel size	12"
Motor Power	1600W
Voltage	230V/110V
Frequency	50Hz/60Hz

PORTABLE DRUM CONCRETE MIXER

Portable concrete mixer with Electric/diesel engine is widely used in building site, road and bridge project, and many other construction sites. It is of bigger capacity, self-falling type. It is suitable for mixing plastic and low-slump concrete.
