TPM-254	254
TPM-305	305

SAWING MACHINE TBA-350

STANDARD: EN 1367-3

The sawing machine is one of the test apparatus required to perform the test and it is used to cut the rock piece to give test portions.

FEATURES

- Strong power and high cutting efficiency. ○
- Upright legs, more stable cutting operation. ○
- Manual feed, flexible and convenient cutting. ○
- Self-priming pump, circulating water system, cutting. ○
- Water delivery is more environmentally friendly. ○

Rated voltage	230V/50Hz
Rated power	2200W
Cutting materials	Block, brick
Cutting length	650mm
Rated speed	2800rpm
Blade diameter	350mm
Arbor size	25.4mm
Cutting angles	90°, 45°
Max cutting depth	90mm(90°) 50mm(45°)
Weight	72kg
Dimensions L×W×H	1276×736×862mm
