

SPEEDY MOISTURE TESTER XY-105MW

The speedy moisture tester XY-105MW measures specimen weight before and after drying, then get percentage of moisture and dry weight, percentage of moisture, humidity in the specimen. It is mainly composed of a balance and a far IR drying oven. Mini-printer need to be ordered separately.

TECHNICAL SPECIFICATIONS

Capacity	110g
Division	5mg
Repeatability	0.2%
Readability	0.02%
Temperature range	Room temperature-200°C
Temperature accuracy	±1°C
Dry by	Halogen lamp
Heat power	480W
Power supply	AC 220V 50Hz
